

Please be mindful of people with vision and/or hearing loss

Give space to a person with a Dog Guide or white cane

Understand they may not see or hear you coming

Keep your pet dog under control at all times and do not allow it to 'say hello' to working dogs

Please ignore Dog Guides because the dog is working. This applies to everyone.

Distracting a Dog Guide could compromise the Handler's safety.

If you think it's appropriate to offer help, speak to the handler, not the dog.
